As a city council member, I will serve as a representative for my district, passing local laws, approving budgets, and advocating for the needs of my community. .....

1.3 - What are your personal or professional qualifications that you believe make you the best candidate? *

My journey has been shaped by overcoming significant challenges, from experiencing homelessness as a teenager to becoming a successful small business owner and community advocate. Pursuing my BA in psychology, with minors in sociology and early education, I bring a deep understanding of the diverse needs of our community. My experience as a Parks and Recreation Commissioner and chair has given me valuable insights into local government, allowing me to advocate effectively for residents.

I have a strong history of supporting workers and unions, having walked picket lines and engaged in labor advocacy. My commitment and volunteer work with local organizations like the East Contra Costa County NAACP for social justice, educational advocacy, and sustainable housing initiatives reflects my dedication to making positive, lasting changes in our community. Additionally, as the co-founder of Lean In With The Kings LLC, I've worked to empower marriages, families, and communities through various programs. I am also civically engaged in working as a volunteer on campaigns for Monica Wilson Shanelle Scales-Preston and voter registration efforts.

With my personal experiences, professional background, and community involvement, I am well-equipped to serve as a strong, empathetic, and influential city council member.

1.4 - What are your top goals for this office? How do you plan on achieving them? *

My priorities are public safety, economic development, housing, infrastructure, community engagement, and preserving open space. The more specific goals I would like to achieve are as follows:

1. Public Safety:

Goal: Enhance community policing efforts to strengthen relationships between law enforcement and residents.

Goal: Expand neighborhood watch programs and increase mental health crisis response teams to address safety concerns more effectively.

Goal: Responsible funding to our police department to ensure they can do their jobs effectively

Goal: Create an educational pathway to recruit locally.

2. Economic Development:

Goal: Support small businesses by streamlining the permit process and providing access to grants and low-interest loans.

Goal: Attract new businesses and industries by offering incentives and promoting the city as a hub for innovation and growth.

Goal: Develop job training programs in partnership with local schools, businesses, and unions to equip residents with skills needed for high-demand industries.

3. Housing:

Goal: Advocate for developing affordable housing options to ensure that all residents have access to safe and stable homes.

Goal: Promote mixed-use developments that combine residential, commercial, and community spaces to create vibrant, walkable neighborhoods.

Goal: Work to preserve existing affordable housing and prevent displacement of current residents.

4. Infrastructure:

Goal: Prioritize the repair and maintenance of roads, bridges, and public transportation systems to ensure safe and efficient travel for residents.

Goal: Invest in sustainable infrastructure projects, such as green energy and water conservation initiatives, to prepare for future growth.

Goal: Improve access to high-speed internet and other essential services in underserved areas of the city.

5. Community Engagement:

Goal: Increase transparency and communication between city government and residents through regular town hall meetings, newsletters, and social media.

Goal: Foster greater community involvement by supporting local events, volunteer programs, and neighborhood associations.

Goal: Make the process of engaging with government accessible and userfriendly

I would love to talk more in-depth about the many different avenues that can be approached to actualize these goals and objectives.

1.5 - How do you plan on engaging your constituents in dialogue after you are elected? *

To engage constituents while adhering to the Brown Act, I will host regular public meetings and community forums to foster open dialogue. I'll leverage digital platforms like a dedicated website and social media for real-time updates and interactive communication. Surveys and polls will help gather resident feedback on key issues, while advisory committees will provide diverse input on various topics. I plan to attend community events and hold regular office hours for direct interactions with residents. Additionally, I'll offer regular updates through newsletters and facilitate workshops to encourage collaborative discussions. These approaches ensure transparency and ongoing engagement with the community.

1.6 - This is a 3-Part Question: Why are you seeking the endorsement of the DPCCC? How will you use our endorsement? How will you support other endorsed candidates and issues? *

I am seeking the endorsement of the Democratic Party Contra Costa County Committee (DPCCC) because I share its core values and commitment to addressing key issues that impact our communities. The DPCCC's endorsement would provide essential support and credibility, helping to amplify my message and connect with a broader audience.

With the DPCCC's endorsement, I will be better positioned to reach a wider audience within my district and reassure voters that my priorities align with Democratic values. This support will be crucial in mobilizing voters and advancing my campaign.

In supporting other endorsed candidates and issues, I plan to collaborate on shared goals and initiatives. I will advocate for policies and causes that reflect our collective vision for a better community, build coalitions, and work with fellow candidates to promote our mutual objectives, ensuring a unified effort toward achieving our common goals.

As a candidate, I am committed to building bridges, actively listening to our community, and working towards solutions that will enhance the overall quality of life in our city. I am running because the future of Antioch is at a critical juncture, and our residents need a leader who prioritizes service over status. This work requires dedication, empathy, and a genuine commitment to addressing the needs of our community—qualities I bring through my lived experience and steadfast dedication to public service. - *Opposes criminalization of low level offenses, advocates for Community Support Services, funding for prompt rape kit processing, gun violence prevention measures; Opposes scapegoating, racial profiling, religious profiling, bigotry, vigilantism, exploitation, and any xenophobic conduct that polarize communities and denounce actions by the government or individuals that keep undocumented immigrants in the shadows of our society; Supports Law Enforcement Training, Civilian Oversight Committees, independent investigators for cases involving the use of deadly force or in-custody deaths, restorative justice;*
- *Supports a properly funded and staffed the U.S. foreign service that promotes democracy and human rights around the world; Supports candidates who work to de-escalate tension especially in areas of conflict like Israel/Gaza, Sudan, Haiti, and other parts of the world through good faith negotiations and work for world peace; Endorse candidates who support the Democratic Party as it works to counter*

aggression by countries that violate the sovereignty of other countries and that fund and implement physical, cyber, and financial attacks on democracies and developing countries.

Please expand on your stance and describe the potential impacts on the community that you seek to represent. *

I oppose the criminalization of low-level offenses, which disproportionately impact marginalized communities without enhancing public safety. Instead, I advocate for comprehensive Community Support Services to address root causes such as poverty, mental health issues, and substance dependence. Redirecting resources to these services aims to break the cycle of criminality and foster a more compassionate and equitable community. I also support the expeditious processing of rape kits and robust gun violence prevention initiatives, focusing on both stringent regulations and addressing underlying causes like economic disenfranchisement and educational disparities.

I stand firmly against division and discrimination, including scapegoating, racial profiling, and xenophobic behavior, which harm individuals and erode social cohesion. I advocate for inclusive policies that support undocumented immigrants, enabling them to participate in and contribute to our community entirely. Embracing restorative justice practices is also crucial, as they focus on healing victims and reintegrating offenders with dignity, thus reducing recidivism and fostering a culture of reconciliation.

In foreign policy, I endorse a U.S. approach rooted in diplomacy and human rights, prioritizing peace and stability through negotiations rather than military interventions. Supporting democratic values and countering aggression are essential for global stability and justice. These policies aim to create a more just, resilient, and inclusive community, both locally and globally, where every individual can thrive in a peaceful and equitable environment.

Additionally, I advocate for inclusive and historically accurate educational materials, including age-appropriate and medically accurate sex and gender education, to prepare students for a diverse and informed future.

DPCCC Value: Seniors & Veteran Support Services

- *Supports the California Master Plan for Aging including dignified living at home housing options that are age, disability, and dementia-friendly; prioritize public housing initiatives over privatization for seniors and adults with disabilities; support retraining for those aged 55-65, and extend unemployment; oppose mandatory retirement; call for stronger oversight of reverse mortgage programs, rigorous prosecution of financial crimes against seniors; support comprehensive single-payer healthcare, with interim Medicare Part D reforms; support HICAP services, affordable mental healthcare including issues around isolation, quality caregiving, and increased funding for In-Home Supportive Services. Preserve programs like Adult Protective Services and home-delivered meals; advocate for the removal of the FICA income limit to strengthen Social Security and preserve pensions.*
- *Champions the needs of veterans and military families by promoting equitable treatment and benefits, access to education including tuition waivers and retraining, adequate healthcare funding including government assistance for those exposed to toxins; elimination of veteran homelessness, establishment of Veterans' Courts and justice programs and support independent investigations of claims of hazing, rape, sexual assault and harassment and that the military remove the chain of command from all investigations and prosecutions; support a path to citizenship for military service members, and protections against discrimination based on ethnicity, disability, gender identity, political affiliation, race, religion, or sexual orientation; oppose deportation of military personnel and limitations on citizenship for children of veterans who are born abroad.*

Please expand on your stance and describe the potential impacts on the community that you seek to represent. *

Dignified living options for seniors and adults with disabilities are a priority, along with supporting public housing over privatization, extending retraining and unemployment benefits for those aged 55-65, and increasing funding for mental health services and In-Home Supportive Services. For veterans, I promote equitable treatment, access to education and healthcare, measures to eliminate veteran homelessness, and protections against discrimination and injustice. These policies are designed to ensure dignity, support, and fairness for both aging individuals and military families.

DPCCC Value: Affordable Housing & Environmental Protections

- *Supports eviction protections, rent control/stabilization, anti-harassment ordinances, and habitability protections; Supports zoning and housing policies that ensure sustainability and affordability, including infill and mixed-use developments that balance job opportunities with housing availability; Promotes the integration of green spaces and community gardens in all communities; Supports local authority in phasing out fossil fuel extraction and preventing the zoning of new extraction sites; Advocates for strong regulatory measures for setting science-based health and safety setbacks from residential areas for industrial sites, including oil and gas wells and toxic dump sites.*

Please expand on your stance and describe the potential impacts on the community that you seek to represent. *

I support sustainable eviction protections, rent control, anti-harassment ordinances, and habitability standards to ensure that residents have secure, stable housing. By supporting these measures, we can protect tenants from unjust evictions and rent hikes, safeguard them from harassment, and ensure that rental properties meet basic living standards. Zoning and housing policies that emphasize sustainability and affordability, such as infill and mixed-use developments, are crucial to balance the housing crisis as well as potential tax revenue generation for a city.

Integrating green community spaces into a city enhances local quality of life and promotes environmental sustainability. I believe in regulatory measures that are science-based and consider the impact on workers, especially around industrial sites, oil and gas wells, and toxic dump sites. Such measures are crucial for protecting community health and well-being. These policies aim to create safer, more sustainable, and equitable communities by focusing on housing stability, environmental health, and public safety.

DPCCC Value: Equality & Human Rights

- *Actively advocates for a just and inclusive society, speaking out against all forms of racism, discrimination, harassment, hatred, and violence; Supports movements and initiatives that address discrimination; Enforces policies that ensure equal opportunities and equal pay for equal work across genders, races, and abilities; Upholds the rights of transgender and gender non-conforming individuals for acknowledgment of their stated name, gender, and pronoun; Supports the use of gender-neutral language to foster an inclusive environment; Promotes the participation of women, LGBTQIA+, people with disabilities, and people of color in elected office and ensures access to facilities consistent with individuals' gender identity and disability access; Supports the right to free speech, ensuring it does not extend to discriminatory practices against any group based on race, religion, gender identity, or sexual orientation.*

Please expand on your stance and describe the potential impacts on the community that you seek to represent. *

Fostering a just and inclusive society, I am committed to actively opposing all forms of racism, discrimination, harassment, hatred, and violence. I support movements and initiatives that address discrimination and enforce policies ensuring equal opportunities and pay for all individuals, regardless of gender, race, or ability. This includes upholding the rights of transgender and gender non-conforming individuals to have their names, genders, and pronouns acknowledged and promoting gender-neutral language to create an inclusive environment. I advocate for increasing the participation of women, LGBTQIA+ individuals, people with disabilities, and people of color in elected office and ensuring facilities are accessible and aligned with individuals' gender identities and disabilities. While supporting free speech is essential, it must not be used to justify discriminatory practices.

DPCCC Value: Healthcare & Reproductive Rights

- *Advocates for the preservation of rights under Roe v. Wade, guaranteeing confidential and unrestricted access to reproductive services without the need for consent or judicial intervention, ensuring continued coverage of all healthcare options; Works toward implementing a universal, single-payer healthcare system, while in the interim, seeking reforms to make Medicare Part D more affordable and accessible, including the ability for Medicare to negotiate drug prices.*

Please expand on your stance and describe the potential impacts on the community that you seek to represent. *

Yes, I support preserving the rights established under Roe v. Wade to ensure individuals have control over their reproductive health decisions, advocating for confidential and unrestricted access to services like contraception and abortion. I believe it is necessary to advance healthcare reform with the ultimate goal of a universal, single-payer system while working on immediate measures to make Medicare Part D more affordable, including allowing Medicare to negotiate drug prices. These policies would protect personal autonomy, improve public health, reduce financial strain on families, and contribute to a healthier, more resilient community.

DPCCC Value: Economic Justice & Business Development

- *Support for Small Businesses and Entrepreneurship focusing on women, people of color, and those with limited entrepreneurship opportunities including veterans; Support the rights of employees to organize and Project Labor Agreements; Ensures a safe working environment free from harassment, intimidation, and retaliation; Advocates for the establishment of local banks and credit unions, limiting regressive financial operations like check cashing businesses and pawnshops; Promotes Project Labor Agreements to protect workers; Supports initiatives to counteract "food deserts" by developing local grocery stores and community gardens in underrepresented areas.*

Please expand on your stance and describe the potential impacts on the community that you seek to represent. *

I believe in empowering small businesses and promoting entrepreneurship, particularly among women, people of color, veterans, and others who face systemic barriers to entry. By providing targeted support—such as access to capital, business mentorship, and tailored resources—we can help these entrepreneurs overcome challenges and build thriving enterprises. When diverse businesses flourish, they not only create jobs but also bring innovation and economic vitality to the community. This focus on inclusive entrepreneurship ensures that the benefits of economic growth are shared more equitably, fostering a more robust, more resilient local economy.

In addition to supporting small businesses, I am an advocate for workers' rights and ensuring safe, dignified working environments. I support Project Labor Agreements (PLAs), which help protect workers' rights, ensure fair wages, and maintain high standards for workplace safety. It's also crucial to establish a zero-tolerance policy against harassment, intimidation, and retaliation in the workplace, creating an environment where all employees feel secure and respected. By advocating for local banks and credit unions, I aim to reduce reliance on predatory financial institutions like check-cashing businesses and pawnshops. Furthermore, addressing "food deserts" by developing local grocery stores and community gardens in underrepresented areas is vital to promoting health and well-being, ensuring that all community members have access to fresh, nutritious food.
